Proposal by the Board of Directors on a resolution regarding authorization of the Board of Directors to resolve on new shares issue

The Board of Directors proposes that the Annual General Meeting authorizes the Board of Directors to resolve on the issue of new shares on one or several occasions during the period up to the next annual general meeting. The number of shares to be issued by virtue of the authorization shall not entail a dilution effect of more than 20 per cent of the registered share capital after completed issue. The issue may take place with or without a deviation from the shareholders' preferential right and with or without provisions on contribution in kind or set-off or any other terms. The purpose of the authorization is to increase the company's financial flexibility and enable acquisitions by payment of shares. If the Board of Directors resolves on an issue with deviation from the shareholders' preferential right the reason may be to add new capital and/or new company owners of strategic importance to the company and/or the acquisition of other companies or businesses. At a deviation from the shareholders' preferential right, the issue rate shall be determined in accordance with market conditions. Other terms may be resolved by the Board of Directors.

The proposal is subject to the support of shareholders representing at least two-thirds of the votes cast and the shares represented at the meeting.
